Headquartered in Italy, **Bamaplast** specializes in innovative pots and containers for cultivation and nursery applications, utilizing exclusively recycled and 100% recyclable plastic materials. With over 50 years of experience, Bamaplast has built his excellence autonomously designing and developing Injection molds, ensuring tailored solutions for clients worldwide.

Our commitment to sustainability is at the core of our operations, thanks to cutting-edge machineries that enhance our energy efficiency, reducing our carbon footprint and for a more sustainable future.

Bamaplast's product range includes unbreakable pots and tubs, as well as specialized containers like our Quadro pots that enhance root performance.

Our blueberry pots are popular among growers, offering durability and functionality tailored to specific cultivation needs.

Choose **Bamaplast** for your horticultural needs and experience the difference of our sustainable, high-quality products crafted with care in Italy.

Blueberry pot

Available colours

40/MR and 45/MR available with irrigation slots.

-  The pot has a specifically designed bottom to guarantee DRAINAGE.
-  The pot has an enhanced VENTILATION to ensure a better root system development.
-  The pot increases the plant GROWING and fructification speed.
-  The pot is suitable for the ORGANIC growing.
-  The pot grants a HEALTHY PLANT thanks to a better disease control.

A breakthrough design. Pushed even further.

ULTRA is not just a pot: it's the advanced solution for those who demand the best from their cultivation. The wide, reinforced rim ensures stability, a secure grip, and easy handling even with mechanical equipment, optimizing time and logistics both in greenhouses and outdoors. The exclusive drainage system eliminates water stagnation, the raised bottom promotes aeration, while the anti-spiralization technology guides roots toward uniform and efficient growth. Made from 100% recycled polyethylene, **ULTRA** combines sustainability with modern design.

20x20x27	7.87x7.87x10.6	1.85	2,910

ADVANCED ANTI-SPIRALIZATION:
Double ribbing for enhanced vertical growth.

RAISED AND SLOPED BOTTOM:
A maximum distance of 5 cm from the ground prevents waterlogging.

BETTER DRAINAGE AND AERATION:
Wide grid bottom and side holes ensure maximum air flow.

REFINED AND DURABLE FEET:
The 3 cm feet fully insulate root system from the ground.
